Sialic acid concentrations were determined in tissue and plasma of patients with endometrial cancer, tissue surrounding the tumor and nonmalignant endometrium in patients with atrophic endometrium. No increase in tissue sialic acid concentrations was seen in endometrial cancer. In contrast, plasma sialic acid concentrations were increased. It is concluded that during malignant transformation the release of sialic acid into the extracellular fluid cannot be assumed to be a function of the tumor content but is a consequence of local synthesis.The present invention relates to a semiconductor device and a method for fabricating the same, and more particularly to a semiconductor device including a plurality of semiconductor chips and a method for fabricating the same. Due to enhancement of functions of LSIs, sizes of the LSIs are reduced. Therefore, as is well known in the art, a semiconductor device including a plurality of semiconductor chips is widely used. For example, JP-A 2003-188210 (KOKAI) discloses a semiconductor device including a plurality of semiconductor chips that are formed on a semiconductor substrate. The semiconductor device includes a wire formed on each of the semiconductor chips. In this case, it is possible to reduce the number of wires in the semiconductor device, and to reduce areas of the semiconductor substrate.Q: Values are not passed to the callback function Can someone explain to me why I am getting values instead of passing them to the callback function. I got errors: TypeError: undefined is not an object (evaluating 'this.drawFrequency.value') TypeError: Cannot read property 'value' of undefined this.drawFrequency.addEventListener('input', handleSliderChange); This is my code: var handleSliderChange =
